3,700 filters
Impacting thousands of families lives with access to clean and safe drinking water.
FINANCES

INCOME:
Donations: $278,000
Expenses: $269,000
Profit/Loss: $9,000

Story by Board Member
Joshua Pinto

Serving with ATTA in Colombia during 2019 has been an amazing experience. Whether it is bringing access to clean water to the forgotten indigenous people of "Los Llanos" or the displaced communities of the ongoing civil war or the refugees fleeing the neighboring country of Venezuela, nothing replaces the joy of being part in satisfying one of the most basic needs of humanity. Providing water filters in the regions of greatest need in Colombia has ensured that over 400 families now have access to clean water. Although there is much more work to be done, providing access to clean water is already creating a lasting impact on the lives and communities of the most unfortunate people in Colombia. I count it a privilege to be able to serve alongside the local leaders and I hope to continue to equip them as they serve their communities by bringing access to clean water one at a time!

Blessings,

Joshua Pinto

WHAT’S HAPPENING IN 2020

We will be going back to our main countries: El Salvador, Vietnam, Colombia, and we will be back in Uganda. We will continue our efforts in Fiji, the undisclosed location in the Caribbean, and Tijuana.

We have a saying internally at ATTA, “lean and mean.” In other words we have a small group of people making a massive impact. We’ve recently hired a few part time people to make this happen. Debbie Collette is our new COO and Jazzi Maya is the assistant to the Executive Director.

Our 2019 ATTA Experience was a huge hit! We are already in the planning stages for this years ATTA Experience come November 2020.

THANK YOU FOR YOUR SUPPORT!
